Advanced Certificate in Web and Mobile Applications Development

SDSU's Web and Mobile Apps Development:
Top 10 Program in the U.S. | Tuition Less than $5,000

With mobile applications integrated into nearly every aspects of our lives, the industry grows daily, with no end in sight. Last year, mobile traffic accounted for 63% of total website traffic in the United States. And according to App Annie, revenues will reach $101.1 billion by 2020.

You can be part of this high-demand, high-paying industry in as little as one academic year, with SDSU's graduate-level Advanced Certificate in Web and Mobile Applications Development program — ranked in the top 10 for best app development programs in the U.S. in numerous surveys.

You'll complete a variety of sophisticated and challenging projects to acquire a deep understanding of the web environment. You'll also learn the science behind Android and iOS apps development — versus just the how-to — equipping you to handle constantly evolving technologies.

Program Highlights
- Tuition is less than $5,000 — among the lowest in the U.S.
- Certificate can be completed in two 16–week semesters
- Courses may be applied to a master's degree
- Learn on campus at SDSU, online, or a blend of both (hybrid classes)
- Approved for federal financial aid through the SDSU financial aid office

Certificate Requirement
Complete at least four courses (12 units) from the choices below, with the approval of the program advisor.
